PRODUCT DATA SHEET

ULTRATRAIL GREY LOW S3 ESD HRO SRC

Art. No. 64.621.0

Protection: fiberglass toe cap and flexible FAP® midsole

Plus: bumper of rubber in the toe area, special fit and last in

women's sizes 36-40

Upper: leather with abrasion-resistant textile inserts

Lining: breathable functional lining

Footbed: anatomically formed comfit[®] AIR footbed

Sole: XTS TRAIL - high quality, 300°C heat and slip resistant,

rubber outsole with IMPULSE.FOAM® midsole or optimal cushioning, stability and comfort

Colour: gray-comb.

Sizes: 36 - 47

SLIP RESISTANT XTS TRAIL OUTSOLE

The easy-to-clean rubber outsole ensures perfect contact with the ground. It is non-slip and abrasion-proof and heat-resistant up to 300°C (HRO). The specially designed cleat profile and the wide flex grooves guarantee optimal flexion, optimize the water-displacing properties (windshield wiper effect) and provide a secure hold on a wide variety of surfaces.

comfit® AIR FOOTBED

The newly developed, breathable ALBATROS® comfit® AIR footbed has elevations in the heel and ball area of the foot as well as a support of the longitudinal arch. This helps the foot keeping its natural position in the shoe and stimulates the musculature while walking. The slipresistant textile cover is odourresistant, moisture absorbing and washable at 30°C.

IMPULSE.FOAM® midsole

Ultimate comfort during long working days. The innovative IMPULSE.FOAM® midsole in two different densities reacts to each of your steps with an energy impulse. Thereby the IMPULSE.FOAM® does not only return the energy, but also provides maximum cushioning and excellent stability.

FIBERGLASS TOE CAP

Fiberglass reinforced composite toe cap with more space for the toes, lighter than a common steel cap, antimagnetic and thermally insulating.
